AMENDMENT

Dear Sir:

In response to the office action mailed March 27, 2006,
please enter and consider the remarks that follow.

REMARKS

Claims 1 through 10 of the substitute specification
filed in this case are presented again and without amendment.

The Examiner has rejected Claims 1, 2, 7 and 8 as
allegedly anticipated by the United States published patent
application of Fell et al. Claims 3 through 6, 8 and 9 were
objected to for dependence upon a rejected base claim but
indicated to be allowable if rewritten in independent form
